

## Letter of Reference - PaintersRUs

To Whom it may concern

RE: Exterior painting of 144 Carlswald Creek, Midrand

1. Quality of work performed - I have had a couple of houses painted in the past, some by so called reputable and very costly providers and to date PaintersRus had surprised me, not only was the work carried out on time but I was astounded at the attention to detail. I am a slight bit obsessive when it comes to neatness and detail this is the 1st painting contractor I have used were I had absolutely no snag list after the work was completed.

2. Quality of work crews - Andrew takes it upon himself to ensure all his employees adhere to his strict work ethic and policies. His team are professional, well presented and a pleasure to deal with.

3. Project management and coordination - They are efficient in starting the job and give realistic time frames as to when the job will be finished. Effective communication between all parties was always maintained which is a crucial part of service delivery.

4. Value - It is difficult to put a price on the quality of service and workmanship, however the peace of mind and stress free experience with PaintersRus is worth every cent.

5. Integrity and professionalism - PaintersRus for me are one of the most professional painting & decorating services in & around North Gauteng. Their commitment to maintaining this reputation is clearly reflected in their work.

Kind regards.

Bard Mullan
