To whom it may concern,

**LETTER OF REFERENCE: PAINTERS R US**

We engaged Painters R Us ("the Contractor") after having heard about them from a previous client of theirs who had nothing but the best things to say about them and their work.

During 2016 we appointed the Contractor for a painting project of the exterior of our home. The contract encompassed painting the house, varnishing the wooden doors and frames, painting the boundary wall, painting the balustrades and other such features and specialist decorative painting in certain areas on the premises.

The representative of the Contractor, Mr Andrew Coldicott, was very knowledgeable and made some really invaluable suggestions on how best to achieve our plan. He also made some additional value inputs that went even further than the scope at no extra cost to us.

Our experience of the Contractor was one of exceptional service, value driven input, professionalism, timeous delivery without deviation from budget, courteous staff and best of all, they did all that they could to achieve their deliverables without so much as a follow up from our side.

Our project was finished on time and our home was transformed and its value enhanced.

We look forward to dealing with the Contractor again in their near future.

Yours in satisfaction  
Dr P Nengovhela
